※" CO2-free electricity" means the electricity which the emission factor for each menu calculated according to "Calculation and Publication of Basic Emission Factors and Adjusted Emission Factors for Each Electric Power Company" (20220510産局No.1/20220511資庁No.15/環地温発No. 2205136, if amended, follow the amendment) is zero. Chubu Electric Power Miraiz CO., Ltd. has achieved virtually zero CO2 emissions by adding the environmental value of Non-fossil Fuel Energy Certificates to electricity mainly from fossil power sources procured by Chubu Electric Power Miraiz CO., Ltd.
